

GD SOLUTIONS CORP.

“Providing solutions today for tomorrow’s problems.”

## The Circuit Master Advantage

**Circuit Master provides the following:**

POWER FACTOR IMPROVEMENT  
LOWER MOTOR TEMPERATURES  
LONGER MOTOR SERVICE LIFE  
ETL APPROVED EQUIPMENT  
CAN/CSA STD C22.2 NO. 190  
ANSI/UL STD 810

\$2,000,000 PRODUCT LIABILITY  
3-YEAR PRO-RATED WARRANTY

12-MONTH MONEY BACK GURANTEE TO

**REDUCED ELECTRIC BILLS ON TREATED CIRCUITS  
BY A GURANTEED 10%, MORE IS VERY POSSIBLE**

*Circuit master will reduce your operating costs!*

**Circuit Master Saves YOU money!**

One of many Energy Saving Products available from CDS

Electric Current travels from line source through the electrical meter to load demand.

Your electric meter records normal kilowatt usage. It also Records surges and spikes as increased Kilowatt usage. Circuit Master filters these surges and spikes in utility power Creating a purer wave form.

THE RESULTS OF THESE ACTIONS ARE:

REDUCED LINE LOSSES (T.H.D)  
REDUCED KVAR  
REDUCED AMP DRAW  
REDUCED KWH USAGE  
REDUCED MOTOR TEMPERATURE  
EXTENDED MOTOR SERVICE LIFE  
ENHANCED POWER FACTOR

**THE RESULT OF ALL THESE FACTORS IS REDUCED OPERATING COSTS**
